(E. C. Lutke—J.P., N.P., Commissioner for Oaths)
BROKERS, REAL ESTATE, INSURANCE.

The Drink Question

in the hot days of July and August, when your throat is cracked and your tongue feels like a piece of leather, and you dare not drink the town water for fear of disease germs becomes extremely critical. But it has been **SOLVED BY LIME JUICE CORDIAL.** The great health-giving thirst-quencher.

The Bow Island Drug Store.

A Great Celebration

Never again will Bow Island have a growth against the weather man. Whatever disappointments he may have inflicted upon us in years gone by, they were all forgotten in the ideal weather of Tuesday. Between Monday night and Tuesday morning a good substantial rain came down and those who heard it imagined it but just a repetition of former times, and therefore a celebration was out of the question. As the day advanced, however, the clouds were dispelled by the sun, and the earlier of the citizens opened their doors to an atmosphere that was very refreshing. Nothing better could have been served out for Bow Island's celebration. Commencing from about eight o'clock the public park and the streets of the town quickly took on a very busy aspect, and representatives of the land were early making arrangements for the important part they were to take in the day's proceedings.

The public park where the celebration was held, is admirably adapted for its purpose. Closely situated near the west end of Main Street it offers easy entrance to the townspeople and on this account if for no other, it will prove of inestimable value to the residents of Bow Island as the years roll on. The ground is now being prepared for the planting of trees and presently a race-track, stables, etc., will be prepared. There are forty acres of it, and considering the low rental charged for it by the Dominion Government, Bow Island may well congratulate itself upon its acquisition. Very few towns in Western Canada have been fortunate enough to be blessed with a piece of government land next their townsite.

The bandstand that has been erected is a very serviceable one, making the music heard to much better advantage. A grand stand has also been erected and judging by the number of people who took advantage of its seating capacity, it is a great boon.

The celebration itself was one of the best put on in Bow Island. It was interesting because of the varied nature of the programme, and the many events—horse races, field races, ball

games etc., furnished sufficient excitement for all. The ground was thronged with a crowd numbering considerably over a thousand, and the country surrounding must have been practically denuded of its residents. They all came in on Tuesday, and they all evidently came in with the intention of enjoying themselves to the full. A true holiday expression was to be seen on every face. Whether it was because of the cheery nature of the crop report, whether it was out of sheer delight at having outwitted the weather man for once on July first, whatever the reason, there was no doubt about the solid tone of the joyous laughter that floated around or the beaming good nature that one saw. It was prevalent everywhere.

The grand parade that was to have taken place at 9:30 was postponed until noon. A large crowd however accompanied the band, ball teams and local athletes to the park, where an early start was made, and the events were pulled off quickly and with the utmost of good humor.

The results of the Sports were as follows:
Boys, under 10-1, Tom Simpson;
2, Dylis Hines;
Girls, under 10-1, Connie Dulmage;
2, Eileen Hines.
Boys, under 16-1, Gerald Dulmage;
2, Tom Simpson.
Girls, under 16-1, Connie Dulmage;
2, Eileen Hines.

BASEBALL.
The Vire had a severe attack of "grand-standitis" in their game with the hayseeds from down south, their gallery plays all failing to come off. As a result their manager couldn't make that deposit of \$30 which he had been talking about. Borden however despite the big score had not got much over the Vire, whose chief fault was over-confidence. Both pitchers did good work, and had Bauman received the support from his infield that the Borden boys gave Heffernan the score might easily have been reversed.

After dinner the big stock parade took place and an imposing array of vehicles lined up for the jolting, the result of which was as follows: A. S. Ashton, of Burdett, first for jolting; single driving horse; F. Berling of

Grassy Lake, first for best driving team; and Jas. Forbes of Bow Island, first for the best draft team.

The prize for the latter was a pair of Haines Housings, donated by Stevenson & Luckhart, and prizes for the two former consisted of harness donated by Robt. Gardner.

Immediately after the parade the pony and horse races were run off. The horses were handicapped on account of the ground, but they had a good straight run of half a mile.

Pony Race-1, Prockey; 2, Murray.
Cowboy Race-1, Prockey; 2, Armstrong.
Single Road Race-1, Hamilton; 2, Nevers.
Team Road Race-1, Beiling; 2, Collett.

220 Yards Dash-1, Ern. Beguin; 2, Walker.
Broad Jump-1, Simpson; 2, Clark Bauman.

Francis Tournament-Singles, R. A. S. MacLaren. Doubles-Grassy Lake, best Bow Island.

LEAGUE BASEBALL.

The game between Bow Island and the Burdett-Pittsburghers was one of the most exciting ever witnessed locally. For the first seven innings it was a point to point on Bow Island then in the eighth the boys from the "manufacturing centre" caught up and passed our total only to be disappointed by a great feat of Jim Bequin's which scored two men and reached first; Carpenter did likewise; Armstrong made a great sacrifice hit, landing the first two safe on second and third bases; then Jim Bequin hit a smashing two-bagger, homing Fraser and Carpenter, winning the game and sending the grand stand and the crowd hysterical with delight. Manager Moerke was so overcome with joy that he tried to stand on his head—he failed and then brought off the

disgraced stunt with better success. Hard luck on the Pittsburghers, but Oh, you League Champions!

It was only the expected that happened when Winnifred met Grassy Lake, and the score stands 10-4 in favour of Winnifred. We are very much afraid that Grassy Lake chances of winning the League Championship are somewhat slim, but if they would realise that ball games are won by players and not rosters, they might stand a chance of finishing third or fourth. The teams were well matched and although Winnifred were always top dog the game was fairly interesting. The grand stand seemed to attract both pitchers who did their best to strike out the fans sitting on top row.

In the evening two dances were held, and both were well patronised. The committee and sports officials were as follows—Committee, H. A. Peglow, R. S. Beattie, A. Lee, A. Swann, J. W. Hurd, J. M. Bratton, R. A. S. MacLaren, J. M. Milroy, E. G. Allen; Starter, H. E. Beattie; Gatekeeper, J. W. Reid.

Town Council.

A special meeting of the Town Council was held in the Secretary's office on Monday evening, June 30th, those present including—Mayor Dulmage, Councillors Ludtke, Dratton, Cotton, Hurd and Hopkins.

The meeting was called for the purpose of formulating a plan of security to be given to the persons subscribing money to the town, on the gas well proposition. After some discussion it was decided that the quickest and better way was to hypothecate the debentures to each subscriber to the fund to the extent of their individual loan, with interest at ten per cent. per annum, said sums to be redeemable when debentures are sold, and a receipt or certificate to this effect to be given each subscriber.

Solomon Lyons, who was present, was requested to prepare a by-law, governing same, to be submitted at the next regular meeting.

Continued on page 6.

DON'T WAIT--

for the completion of Drilling Operations and the Piping of the Gas into town, before you make the first payment on those lots, for by that time they will cost you double to what you would pay now and the other man will reap the benefit.

Local and General.

W. S. Henry was a visitor to Medicine Hat on Wednesday.

Services will be held at All Saints' Church next Sunday at 11 a.m. and 7:30 p.m.

Buy town lots! There'll be money in them.—R. S. Beattie, Real Estate Agent.

Hall and Fire Insurance, Farm Loans.—A. Elsworth.

Birth.—On Sunday, June 29th, the wife of Thos. Prouse of a son.

I loan money and carry in surance. See me.—R. S. Beattie, Town.

Mr. and Mrs. J. W. Reid of Lethbridge celebrated with the citizens of Bow Island on Tuesday.

D. N. Pederson returned on Monday from Medicine Hat accompanied by his daughter Miss Velyn.

List your Town and Farm Property with me. Things are moving.—R. S. Beattie, Real Estate.

Mr. Ira Shaver of Avonmore, Ont., who is making a tour of the West, spent Thursday in town the guest of Miss McCrea.

A picnic, baseball game and bowery dance will be held at T. C. Thompson's, 138-11, today.

A. D. Kennedy, of the Peace River and Alberta Investment Co., Swift Current, was in town on business Monday.

The Norwegian Lutheran services will be held in the Presbyterian Church next Sunday at 3 p.m.

Weather permitting the Band will play a concert on Tuesday evening next, down town.

W. A. Buchanan, M.P., arrived in town on Monday en route to Altitude, where he was billed to address a gathering on July 1st.

The many friends of Mrs. D. N. Pederson will be glad to hear that the operation she recently went under at Medicine Hat was entirely successful, and hopes are entertained of an early recovery.

There will be Norwegian Lutheran services in the Fertile Plain schoolhouse on Sunday, July 13th, at 2 p.m. The pastor will tell about the great convention held in the Auditorium, St. Paul, Minn., June 12-19.

According to an order issued by the Attorney General's department, there will be no more boxing bouts in Alberta. This order follows as a result of the finding by Justice Harvey in the Pelky manslaughter trial.

Miss Burgess left Saturday morning to spend the holidays with her brother at Wardner, B. C., and Miss Mitchell for Calgary and Lethbridge, Alta. Both teachers carry with them the good wishes of their many friends and regrets are freely uttered at their departure.

The Hospital Ladies' Aid collected \$74 on tag day, July 1st, making the total cash on hand now over \$860. This pretty well expresses the desire of the people to have a hospital in Bow Island, and it is hoped similar enthusiasm will be shown towards the directors of forts in the future.

At a Board of Trade meeting held on Friday evening last the matter of the National highway came under discussion, and it was decided to instruct the surveyor to continue the road down past the public park

paralleling the C.P.R., to 1st Avenue thence north to Main Street. The vacancy of President, caused by the departure of P. L. Leach, was filled by the election, unanimously of I.A.S. MacLaren, former vice-president. W. P. Cotton was elected vice-president.

The members of Bow Island Lodge A.F. & A.M., together with a number of visitors from the surrounding towns, attended divine service at the Presbyterian church on Sunday evening last. Mr. Shearer, the Presbyterian minister, preached an able discourse. Taking his text from the 7th chapter of Amos, "And the Lord said unto me Amos, what seest thou? And I said, A plumbline," the minister based his remarks thereon and gave a sermon that was thoroughly appreciated. The members of the Order numbered about twenty-six.

The officers of Bow Island Lodge I.O.O.F. for current term are as follows:—P. G., J. W. Reid; N.G., R. L. Jamieson; V. G., R. S. Beattie; Treas., E. Willmot; War. C. Bakkmann; Com., J. Watkins; R.S.N.G., F. Sutton; L.S.N.G., A. Elsworth; R.S.V.G., H. Spekel; S.V.G., J. W. Hopkins; J. S. E. Leach, O.G., J. Sumpsett; Chap., K. M. Holmrodt; R.S.S., D. B. Amis; L.S.S., E. M. Sackles.

A Pleasant Evening.

One of the most enjoyable evenings ever experienced at a social gathering was that spent at the residence of Mr. and Mrs. W. C. Jones on Tuesday the 24th June. Whist, games and music occupied the early hours of the evening after which Mr. A. P. West gave a short address, on the "Hardships endured by Old Timers at Bow Island," speaking eloquently of the warm friendship and sociability of the town. Mr. and Mrs. Jones which had done so much to make these hardships bearable, and expressing the great regret which the old-timers felt at their departure, and wishing them companionships as agreeable, expressed

HOME COURSE FOR FERTILE AMBERRIES

CULTIVATION OF STRAW- BERRIES.

By L. C. CORBETT, Horticulturist,
Bureau of Plant Industry, United
States Department of
Agriculture.

It is the strawberry a very attractive subject for development is presented. It is a plant which is easily propagated by seeds, which, of course, the only means of securing new forms. The seeds may be selected from plants showing the desired tendencies, or they may be produced by crossing two plants possessing characteristics which it would be desirable to combine in one plant, that for the breeder the strawberry is provided with a means of the preservation through the agency of runners (stolons), which enable the propagator to perpetuate his plant by a cheap method without fear of loss of change of characters.

The main crop in the plants the aim is to get there as large and strong as possible, and to make the plant to be made rich and put in good till by frequent cultivation early in the season.

The main production of runners for one's own plants is quite another matter. The fruit crop is the chief object, and the production of runners prior to harvesting the fruit is discouraged.

The difficulty with this method of securing runners is that the plants for August and September planting. When the main planting is done in the spring, the plants are not given as much importance. In favorable seasons, however, strong plants for

the berries, and the surface should be reduced to a condition which would form an ideal seed bed.

Preparation of the Soil.

If the soil is not rich for test results it should have a dressing of at least twenty car loads of well decomposed manure per acre, either plowed or surface-cultivated after plowing. If the manure is not available plant food should be supplied by a liberal use of finely ground bone, chemical fertilizers, and phosphate. The use upon the plants of the time of planting is of enormous manure, such as nitrate of soda, at the rate of about 100 pounds per acre. If the fertilizer is not available, it can be applied in solution it will give quicker results than if put on in the form of a salt. If the fertility of the soil is little more than sufficient to support this plant, when the heavy strain of fruit production comes on the plant will only perform the number of fruit it can supply with all the advantage of applying quickly available plant foods just at this critical time.

Plants with small crowns—i.e., an abundance of leaves—and with roots are the most desirable. If the leaves are small and the roots are the root system of the plant the more of two or three of the older leaves will be left on the plant. Horticultural varieties of strawberry occur with imperfect for practical purposes as well as with roots. The roots containing both stamens and pistils. It is important that the plants be given careful attention to the making his plantation, as a patch by making of rhizome stolon along with moderate growth. While many such sorts when properly interpreted with the growing conditions have proved to be one large factor in the success of the grower. There is no way of the plants, but the grower must select the plants that are not in the ground.

When to Set the Plants.

There are several considerations which govern the time of setting strawberry plants. The time of setting should be in the spring, when the ground is not too dry, and the plants are not too dry. If there are not timely rains, the plants will be dried out. It is important to keep the land free from weeds and more trouble will be necessary. The plants should be set in the ground in the spring, when the ground is not too dry, and the plants are not too dry.

Selection of Soil.

The soil considered best suited to the cultivation of the strawberry in the southwestern part of the United States is that known as a sandy or gravelly loam. A warm, quick soil, although naturally poor, is to be preferred to a heavy, retentive soil well supplied with plant food. The besting plant food can be supplied by the addition of fertilizers, while the physical characteristics of the soil can only be modified with great difficulty by cultivation, drainage and the addition of organic matter.

PROGRESSIVE ANIMOSITY.

Reason For the Lady's Discontent.

Somewhat heartless and disgusted looking boy, with torn clothes and rumpled hair and a few suspicious hairs on his face, so I stopped and asked him what the matter was and whether it could be of any assistance to him.

"New, you can't do nothing for me; I'm all right," he explained.

"Ah! Have you just your position?" I asked.

"And I wouldn't care if I had," the president of our company in the worst of duffer in New York.

"Does he like that you?" I said.

"New, he doesn't even know me by sight, but the case into the office corner the secretary's collar the worst you ever seen."

"How did that affect you?" I asked.

"Well, I got mad," he said, "but I got square somehow, so he jumped on the cashier with his feet, and after the cashier thought it over and got good and was on the looker."

"And the cashier was on the looker?" I asked.

"Yes, and the cashier was on the looker," he said, "and the cashier was on the looker."

"And the cashier was on the looker?" I asked.

"Yes, and the cashier was on the looker," he said, "and the cashier was on the looker."

"And the cashier was on the looker?" I asked.

"Yes, and the cashier was on the looker," he said, "and the cashier was on the looker."

"And the cashier was on the looker?" I asked.

"Yes, and the cashier was on the looker," he said, "and the cashier was on the looker."

"And the cashier was on the looker?" I asked.

"Yes, and the cashier was on the looker," he said, "and the cashier was on the looker."

"And the cashier was on the looker?" I asked.

"Yes, and the cashier was on the looker," he said, "and the cashier was on the looker."

"And the cashier was on the looker?" I asked.

"Yes, and the cashier was on the looker," he said, "and the cashier was on the looker."

"And the cashier was on the looker?" I asked.

"Yes, and the cashier was on the looker," he said, "and the cashier was on the looker."

"And the cashier was on the looker?" I asked.

"Yes, and the cashier was on the looker," he said, "and the cashier was on the looker."

"And the cashier was on the looker?" I asked.

"Yes, and the cashier was on the looker," he said, "and the cashier was on the looker."

Rural Municipality of Bow Island, No. 94.

POUND BY-LAW!

The Rural Municipality of Bow Island, No. 94, in response to petitions from many farmers, have drafted a Pound By-Law, a copy of which appears in this issue, and have done all in their power to protect the farmers from the loss and damage occasioned by the trespassing of animals, which in the past they have had to suffer in silence. It is now up to

The Farmers to protect themselves!

and those who are wise will at once erect lawful fences in order to take advantage of this By-Law and be in a position to claim compensation. We are able to help you out in this for we stock just the very kind of wire which will meet all the requirements of this By-Law and yet will enable you to fence your farm at a very small cost. You cannot buy better or stronger wire than this, and the price we are charging is away below that you will pay elsewhere.

The Law helps those who help themselves and we can help you to help yourself.

Don't Forget the Big Public Meeting!

There's an object and a Reason.

THE OBJECT of every Farmer who transacts his business in Bow Island is to secure a hundred cents of value for every dollar which he expends for Groceries, Hardware, Furnishings, etc., and that is

THE REASON you will always find our store resembling a Public Meeting. Past experience always guides the intelligent man in his actions, and having proved for himself in the past that he can rely upon obtaining better value for his money at our store than at any other establishment he comes again.

Once Bitten--Twice Shy! You will never get shy with us.

Why be stampeded into taking what is given you elsewhere when you can always get what you want here and just as cheap.

THE BOW ISLAND TRADING COMPANY.
